

Sega Seal Serial No.	Cab Metal Plate Serial No.	Model Type	Details
10088		Deluxe Upright	
11741	209353	Sitdown	No further details available.
12364	212734	Deluxe Sitdown	<p>This is a deluxe sitdown motion cab. The machine was still on site after 32 years, in Herne Bay, Kent. It was purchased in 2018 when the arcade it was in closed down. As some point during its life the machine was converted to Turbo Outrun.</p> <p>As of August 2018, it is currently being fully restored back to its original Outrun configuration. <a href="#">Check out the thread on UKVAC.</a></p>
12627	212848	Deluxe Sitdown	
13368		Deluxe Upright	As of Jan 2002, this was located in Las Vegas, Nevada, USA
13533		???? Upright	
13958	215820	Deluxe Upright	Made in USA. Purchased in July 2017 from a well known Arcade dealer in the US. Unknown history beyond that, but believed to have always been OutRun and not converted to a Turbo. Imported into the UK by RGP. During 2018 it underwent a full restoration - new art, steering rebuild, pedal rebuild and fully restored bezel and dashboard panel. It even came with the original steering wheel badge! Details of the full cabinet restore can be found over on UKVAC at <a href="http://www.ukvac.com/forum/outrun-upright-restoration_topic368788.html">http://www.ukvac.com/forum/outrun-upright-restoration_topic368788.html</a>
14462	212928	Sitdown	Date on cab sticker, Nov 21 1986. Purchased by current owner in 2014. This has been electrically restored. Cosmetic restoration now underway.
14505	213179	Sitdown	Owners' comments July 22: <i>"It was purchased in August 2019 from a seller out of Massachusetts who sourced it from an unknown arcade. I picked it up and drove it home to Detroit where it now lives in my tiny Sega museum. I have rebuilt the entire steering assembly, replaced the accelerator and brake pots, repaired the monitor (Wells Gardner K7000 (P447) with a Philips MVA48ABK05X tube that was clearly taken from a World Series Baseball) and just finished upgrading my spare Rev A PCB to the 2.02 enhanced ROM set"</i> .
14653	214689	Deluxe Upright	Owners' comments July 22: <i>"Located in Italy"</i> .
14659	212111	Deluxe Upright	<p>Owners' comments June 2024: <i>"Plastic bezel production date sticker says 5.2.90. This may have been replaced at some point because it has a relatively low serial number. Cabinet seems to have changed ownership or been repaired in 2000.</i></p> <p><i>Sold in November 2009 by an eBay seller from Dundee, Scotland who was moving abroad. Listed as not working. Owner had it for a couple of years and said it had been working previously but had stopped working. Fuses had been removed. 5V transformer was not working. Previous owner said it had been in a funfair before he purchased it. CRT had severe burn-in. Floor had suffered water damage at some point and needed to be replaced. Owned privately since November 2009 in Ayrshire, Scotland. Cabinet being restored and being converted to run Cannonball and MAME"</i>.</p> <p>See the restoration at: <a href="https://lynn3686.com/outrunrestoration.html">https://lynn3686.com/outrunrestoration.html</a></p>
15855		Deluxe Upright	Owners' comments July 22: <i>"Was in a finished basement for the last 8 years well taken care of. I believe the previous owner said his aunt and uncle had it before him for quite a few years"</i> .
17262		Sitdown	Bought from a UKVAC forum member in April 2015.
18387		Mini Upright	
18380	227800	Mini Upright	
18403	218825	Mini Upright	Working but needs restoring.
18488	212520	Mini Upright	
18502	218925	Mini Upright	Board serial 861211.
18691		Deluxe Upright	This machine currently resides in Cheltenham, England
19274	221686	Deluxe Sitdown	Details of the full restoration of the machine can be found over on the UKVAC forums at: <a href="http://www.ukvac.com/forum/outrun-deluxe-full-restoration_topic383890.html">http://www.ukvac.com/forum/outrun-deluxe-full-restoration_topic383890.html</a>
20736		Deluxe Upright	Owners' comments July 22: <i>"This cab has been in my collection since approx 1999. It was bought from a group of students living in a terraced house just outside St Paul's Bristol. The purchase price was £250. The machine was at one point located in "Mad Harry's" arcade in Bristol town centre. When purchased, the wheel logo was missing. It originally had a repro version produced by fellow collector Gary Smith and now plays host to a plastic repro. In June 2014 the board set developed a problem with the background and road. The PCB was sent off and successfully repaired by Mark over at <a href="http://RetroClinic.com">RetroClinic.com</a>. In 2021, the board developed a sound fault. The PCB went back to Mark where the sound fault was fixed. Enhanced ROMs were also installed. Spring 2022 - the board set currently has what looks like a tile map issue. Saving the pennies to get the PCB booked back in with Mark at Retro Clinic"</i> .

Sega Seal Serial No.	Cab Metal Plate Serial No.	Model Type	Details
20824		Deluxe Sitdown	The owner paid £150 for the machine, and it actually cost more than that to transport home! Pictures documenting the machine's restoration can be found at: <a href="http://www.miragedisco.co.uk/arcade/">http://www.miragedisco.co.uk/arcade/</a>
20933	222934	Deluxe Upright	Located in Essex, England (as at 11th Jan 2021). Original condition with no refurbishment. Fully working "despite a bit of a dodgy image on the monitor"
20939		Deluxe Upright	
21210		Mini Upright	Purchased in March 2015 from a seller in Jutland. Price paid 5000 kr (£580). The pedals and footplate have been painted black, and the side art is in good condition. Unfortunately, the gas pedal has been replaced with a hinge.
21560	223637	Deluxe Upright	The machine is currently on location at Billy's Midway Arcade, Hawthorne, NJ, USA. Owner comments as at 2021-01-04: <i>"The story I heard was that it fell off the truck during delivery, so it was screwed back together with aluminum plates but as bad as the sides look, it looks and plays nice otherwise"</i> .
22252		Deluxe Upright	PCB Serial No: 837-6063-02 Rev A, IC Serial No (sticker on back door) 870226.9413E.  This is an American machine and still operates on 110V. Imported from Illinois, USA in 2005 as a fully working machine. \$125 USD (approx £250 GBP at the time) paid for the machine only (import charges extra!).  Comprehensively restored over 2009 - 2011 with many New Old Stock parts. According to the owner, this is "Now in possibly better condition than when new".
22360	224574	Mini Upright	Owners' comments Feb 2021: <i>"Mines an upright mini. Bought it in 2017 and it was in a disused nuclear bunker in Wiltshire that was being used as a cannabis factory until the rozzers found out. Needed work doing to the cabinet as was pretty rotten in places. The board went to Mark at Retro Clinic as the sound was playing up. All fixed and chip upgrade done. Full strip down clean, polish and repaint and now sits in the kitchen (to the wife's disapproval but don't want it in the cold garage where it could rust!!!). New springs on the steering and have the upgraded cogs from Giz10p but not fitted just yet as the originals are only cracked, not broken yet"</i> .
22455		Mini Upright	This cost the current owner a mere £50 plus van hire. Required cosmetic restoration, chassis repair and a steering wheel badge.
22849		Deluxe Upright	US cabinet, converted to UK voltage. Matching serials on cab and PCB. Paid £950 from eBay in Dec 2013.
22928	227958	Mini Upright	Although the serial number of 22928 has been taken from the bezel this originally came from another machine.  This is a mini upright, manufactured under licence from Brent Leisure. The cab was acquired by the owner in 2010 for £167 and was a mess when purchased, but a solid shell to restore. When purchased the steering wheel logo and map topper were present.  The board set repaired by Mark at <a href="http://RetroClinic.com">RetroClinic.com</a> . The owner has touched up the front plate. All metal work has been powder coated and rubber matting has been replaced. It has new steering springs and a new A and B gear that need fitting when the current ones finally break.
22929		Mini Upright	This cab runs MAME and has an LCD monitor installed. A video of it running can be found here: <a href="http://youtu.be/Aa7ulewtekU">http://youtu.be/Aa7ulewtekU</a> . The owner has acquired a few Out Run boards and plans to put a proper monitor back in and get it running original hardware once more.
22999		Mini Upright	Restoration completed in August/September 2017. This cab has been fully cleaned and has all new metal gears in the steering assembly. The pedal assembly has been chrome plated, new decals have been applied and minor structural damage to the cab has been fixed.  The machine was assembled in the UK and has "Deutsche Mark" Coin inserts. The owner points out that it must have been on location in Croatia for some time as it has a coin mech for Croatian Kuna and had a "2 Kuna 1 Play" sticker on the coin door. The cab was purchased from a seller in Budapest for 600 Euro and now resides in an apartment in Vienna.
23328		Mini Upright	Purchased in March 2017 from a producer at IO Interactive (The Hitman series of games). Price paid was 4500 kr (£513). The side art is in acceptable condition, but does have some scratches. The machine has been fitted with new steering wheel gears, and has its original steering wheel cap. The gear shifter is a little loose.
23750		Deluxe Upright	Owned by a member of UKVAC.
23720	216184	Deluxe Upright	Machine purchased from Coin-Op Warehouse in 2020 for £1000. It arrived with no monitor or PCB. The current owner (as of Jan 2021) sourced the PCB from Italy. The PCB is currently away for repair. Serial number plate states "Made in USA"
23813	229086	Deluxe Upright	The machine is complete, and as of Jan 2021 the current owner is fitting new side art and carrying out light restoration. Serial number plate states "Made in USA"
24315		Deluxe Upright	Comments from current owner as at Jan 2021: <i>"Mine is US version that I had imported over and needed some work so I managed to find a new old stock monitor bezel and it's got the steel gears in it, I'm still looking for a good condition steering wheel for it to complete the jobs on it"</i>
24724		Deluxe Upright	27th August 2010 - Listed on Ebay under item number 280554466365. Staring price was £49.99. End price was £311.99 on 6th September 2010, with 13 bids. Seller was moonshine818.
24728		Deluxe Upright	The owner purchased this cab in Wood Green, London, in a very tatty condition. Since then it has been fully restored and currently gets played once or twice a week.
24746	243463	Mini Upright	The original Sega Seal is missing from this machine, and instead has a seal from an Outrun Deluxe cabinet that the owner presumes was junked. Purchase price was £200 back in 1997.

Sega Seal Serial No.	Cab Metal Plate Serial No.	Model Type	Details
24832	232128	Deluxe Upright	Owners' comments Feb 2024: "I have owned this machine since 2002, but have no knowledge of its history before that. I bought in defective state from a Danish collector, and then found a used original PCB set for it on eBay. It's not restored, but in working order".
24840		Deluxe Upright	Owned by a member of UKVAC.
24996		Mini Upright	Converted to Turbo Outrun and then back again. Owner paid around £500 from eBay, back in November 2012. It's possible that this cab has since been scrapped following damage.
24999		Mini Upright	Owners' comments Jan 2021 <i>"I bought it as a non worker about 3/4 years ago. I replaced the CPO with one of Wim's and have fixed it up and cleaned it overall. Looks gorgeous now. Mostly all original apart from the CPO"</i>
25259	230925	Mini Upright	Current (Jan 2021) owner bought from a UKVAC member in April 2020. Originally operated in the states by Anthony Amusements, Manassas, Virginia. Machine now located in the UK
25783		Mini Upright	The owner has had this in their collection since December 2012, and that it was already externally restored when he bought it. Since then he's rebuilt the steering and gear shifting mechanics with mostly NOS (new old stock) components, so the steering and gear changing is now pretty much as new and silky smooth.
25842	243440	Mini Upright	Owners' comments Jan 2021 <i>"I have had it for 16 years. Bought it from Southampton. Been stored for the last 14 years in a damp garage and I have recently restored it so its back to its former glory and is back in the house"</i> . The cab is currently in Bradford, West Yorkshire, England. Serial number plate states "Made in England"
25864		Mini Upright	September 2008 - Purchased by Ebay member Charlie's Bar. Final auction close price unknown.  At some point after this date it must have been sold again, as in April 2015 it was being sold by Ebay member mikeguildford (Item number 281659814856). The starting price was £100. The seller mentioned that the steering wheel had been rebuilt and calibrated using genuine springs and gears from <a href="http://arcadeparts.com">arcadeparts.com</a> . Negative things the seller pointed out were that the image rolled unless the V-hold was tweaked at the back, and it also needed one new speaker. After a whopping 36 bids this machine finally sold on the 21st 2015 April for £1,224.48!
25937	256762	Deluxe Sitdown	Owned by UKVAC member "mykill"
?????	211306	Deluxe Upright	Owners' comments Jan 2021 <i>"Location: Oregon, USA. Deluxe Upright - Purchased as a project in 2020 (\$200). Rough shape, but had a working PCB and played blind. Cabinet had been dropped at one point and cracked. Game spent most of its life in a laundromat and the exhaust fan had pulled about 10 lbs of dryer lint into the game - it was everywhere! All the best cabinet parts will be donors to SN 220025"</i> .
?????	215684	Deluxe Upright	American import machine. As of January 2021 this is located in the UK
?????	220025	Deluxe Upright	Owners' comments Jan 2021 <i>"Locatlon: Oregon, USA. Deluxe Upright - Purchased as a project in 2020 (\$80). Nice cabinet, with no PCB but a nice monitor. The plan is to take all the best parts from SN 211306 to complete the restoration of SN 220025 for my personal collection"</i> .
?????	220047	Deluxe Upright	
?????	222424	Deluxe Upright	Sold on eBay on 9th Jan 2021 as "For parts or not working: for £300 "Buy it now". Cab was a shell with no PCB or monitor. Cab had been fitted with a Logitech steering wheel and pedals.
?????	229004	Deluxe Upright	American import machine. As of January 2021 this is located in the UK
